

# ADVANCES IN COASTAL RESTORATION RESEARCH

Holiday Inn Express  
Constitution Avenue, Baton Rouge

17 May 2007  
09.30 -14.00

A presentation by CREST and Louisiana Sea Grant researchers and extension agents of recent research results  
Special lectures by Dr. Lance Gunderson (Emory University) and  
Dr. Glenn Thomas (LSU and LA Sea Grant)

For more information, contact:  
Piers Chapman at the CREST Office (225-578-0069; [pchapman@lsu.edu](mailto:pchapman@lsu.edu))  
or Mike Liffmann at Sea Grant (225-578-6290; [mikelif@lsu.edu](mailto:mikelif@lsu.edu))

CREST has supported over 30 research projects since 2003. This meeting will use poster Presentations to showcase the results of these researchers as well as the work of Louisiana Sea Grant's extension agents in improving our knowledge of how to restore the coastal region of Louisiana and Mississippi.

In addition, there will be talks by the following experts:

Dr. Lance Gunderson (Emory University) on “Practicing Adaptive Management in Complex Social-Ecological Systems”

and

Dr. Glenn Thomas (LSU and LA Sea Grant) on “After the Storms: Revisiting Coastal Restoration and Fishery production.”

Further information is available from Piers Chapman ([pchapman@lsu.edu](mailto:pchapman@lsu.edu); 225-578-0069) at the CREST Office, or from Mike Liffmann ([mikelif@lsu.edu](mailto:mikelif@lsu.edu); 225-578-6290) at LA Sea Grant.

There is no charge for attending the meeting. Lunch will be provided, but please pre-register with Piers Chapman so that we have the correct number of meals available.
